CAMP BIDWELL.

A correspondent of the *Silver State* writing from Camp Bidwell says:

"Bidwell is a very pleasant post, with pleasant surroundings. It is built at the foot of Mount Bidwell at the head of Surprise Valley, with all the advantageous adjuncts of wood, water and grass. The valley is thickly settled and affords superior inducements to the settler, the soil being equally well adapted to grazing and agricultural purposes, supplies are, in consequence, comparatively cheap.

Wood (pine) per cord \$2.75
Barley 100 lbs. 1.25
Oats 1.00
Hay (loose) 2000 8.00
Straw (loose) 100 0.50
Butter 1b 48cts

All stores forwarded from headquarters come by way of Reno, which is 200 miles from the Post. The quarters are very good, capable of affording accommodation to 200 men each (infantry and cavalry quarters) has a wash house, store rooms, kitchen, cooks sleeping apartments and dining room, all well ceiled and with plenty of light, and water conducted by pipes throughout the garrison. Above the Post some hot springs have been utilized for bathing purposes. We have also a very neat theater, which, although built upon the reservation, is an entirely private enterprise.

WARNING

The *Bodie Standard* says:
Our California and Nevada exchanges will do us a favor by cautioning such of their readers who intend coming to Bodie to defer their trip for at least three months. People are coming in here at the rate of 15 to 25 per day, which, with our present limited accommodations, has resulted in crowding the town to such an extent that to obtain even a place to spread one's blanket is a matter of great difficulty. Although there is a considerable amount of lumber arriving daily, it is taken immediately at a high price and in small lots by men anxious to build cabins and other small buildings for individual use. This prevents parties who wish to build boarding houses obtaining a sufficient quantity of lumber for their purpose, even by paying a high price, so that, until the roads are thoroughly opened again and lumber comes in in greater quantities, very little more accommodations for new arrivals will be made. Although Bodie's prospects are brightening every day, the natural result of overcrowding the town, especially during this inhospitable weather, will be discouragement on the part of some whose complaints will do the place an undesired injury.

PRACTICAL SECOND-NIGHT.

Mrs. Bowers the *Sherman* discovers the whereabouts of a Lost Diamond Ring.

WOODCHOPPERS' CAMP.

SIEIRA VALLEY, Jan. 27, 1878.

To the Editor of the *Virginia Chronicle*:
A few days since I had a very valuable diamond ring stolen from the camp where I was chopping wood in the mountains. The other day, seeing in your paper an account of the capture of a Chinese thief through Mrs. Bowers' powers of second-sight, I called on her to see if she could do anything for me. She directed me to look under an old cabin near my camp, and assured me that in an old boot under that cabin I would find my ring, together with an old rusty pair of scissors. I did as directed, and, to my great surprise and joy, found it just as she told me. Now, the place where I found my ring is in the mountains, seven miles from where she lives, and I cannot account for her knowledge of its place of concealment except upon the hypothesis of her possession of the gift of second sight. To the truth of the above statement I am willing to make affidavit. C. B.

WONDERFUL SUCCESS

OF THE GREAT

LUNG AND THROAT REMEDY.

DR. EMBEL'S

BALSAM AND COUGH MEDICINE

Decided to surpass everything hitherto introduced for the Swift and Speedy Cure of all Lung and Throat complaints.

The sale of this famous remedy for the cure of all Colds or Coughs peculiar to this mountain climate has increased so marvellously since its recent introduction, that the proprietor fearlessly challenges comparison with any medicine of the kind in the world.

This wonderful remedy is especially adapted for all Lung and Throat Complaints peculiar to miners or any persons liable to exposure from colds draughts in tunnels working in bad air underground or the absorption of powder smoke into the lungs. Three doses a day will keep the lungs clear and enable the miner to work in the midst of powder smoke without coughing.

It is not claimed for this Balsam like most patent medicines that it will cure all diseases but it is guaranteed to cure all diseases of the Lungs. One bottle of the Balsam will, in nearly all cases, cure a cold or cough of from one to two months duration, two bottles, a cold or cough of from two to four months standing and three bottles any similar affection that has been in existence for several years.

Notice: That the public is called upon to observe that Dr. Embel will in all cases refund the money to purchasers of the Balsam on the returning the bottles to him, if not cured within a reasonable length of time.

To be had of all Drug Stores and all Merchants stores in mining camps.

NEWS OF THE MORNING.

The steamer *Metropolis* was stranded off North Carolina, and 169 passengers lost their lives. The coast for two miles is strewn with dead. Only 50 were saved.

Phillip Watson, the wife murderer, was hung in Cincinnati yesterday, before 5,000 spectators.

The Returning Board trial is in progress in New Orleans.

The House Committee on Pacific Railroads is still hearing argument on the Southern Pacific bills. Huntington answers Tom Scott's argument.

The Eastern war peace terms are still uncertain. The Russians are massing their forces southward and there is much suffering among the refugees.

The House Committee on Education and Labor report unanimously against Chinese immigration.

W. Hy Doane, who killed the Chinaman for rape in Gold Hill, has been exonerated by the Coroner's Jury.

Gen. J. E. Johnston will be a candidate for Congress from Richmond.

The snow, sleet and rain storms all over the East and Canada, extended also to the West. Much damage to ocean shipping is feared.

DESIGN FOR A NEW MONUMENT.—A design for a national historical Washington monument has been circulated among members of Congress and others, which is intended to supersede that of the present unfinished structure. The pedestal is divided into three sections or stories, representing the three great epochs in the history of our country:—

First—The discovery of this country in its rude, wild state.

Second—The dawn of civilization.

Third—The great revolutionary period.

The third story is in full relief. Washington's generals are of colossal size; eight of them are mounted on horseback, two at each of the four corners; the rest are in groups between the corners, so arranged as to fill the space, making a good composition. One of the groups are in consultation; another holding a council of war, &c. There will be in all twenty-five colossal statues—nine equestrian and sixteen pedestrian. There will also be six panels in alto or high relief figures, and ten in basso or low relief. The whole structure is to be purely American, and eighty-two feet in height, surmounted by the colossal equestrian statue of General George Washington, as he appeared at the battle of Princeton, which was the turning point of the Revolution.

COSTLY STATE CAPITOL.—To expend fourteen million dollars on a State capitol seems like wanton extravagance, yet the State of New York is doing about that thing. Governor Robinson's last message states that up to December 15th the new capitol in process of erection at Albany had cost \$8,276,615 36. Last week a bill was submitted to the Legislature asking for an appropriation of \$3,198,125 to finish said building. These sums make an aggregate of over thirteen and a half million dollars. It is furthermore stated to be the opinion of the architect that the entire cost of the structure will run up to full \$20,000,000.

BISMARCK WANTS AN ASSISTANT.—There seems to be some chance that the Federal Council will declare a bill which is to pave the way for the appointment of a German Minister. However, as it is impossible for the Chancellor to bear the burden imposed on him by existing laws, saddling him with the control of the entire German administration, earnest endeavors will be made to realize the contemplated change.

Gov. HALLIDAY, of Virginia, has excited the indignation of the old-timers of the State, because, after all the pomp of his inauguration, he has locked up all the plate in the Executive Mansion and went to a hotel to board. In *ante-bellum* times, they say, the Governors of the Old Dominion entertained in princely style, spending double, and often four times as much as their salaries.

W. P. McINTOSH, late of Carson, has leased the Exchange hotel in Aurora.

Colonel Robert G. Ingersoll, who is traveling through the country championing the cause of infidelity and atheism, recently appeared in Syracuse, where he was answered by Chancellor Haven, of the Methodist University of that city. Recently he lectured again in Buffalo, where the following challenge was sent to him by the Rev. William B. Affleck, a Wesleyan minister of England, who is on a lecturing tour here in the interest of temperance:

*Colonel Robert G. Ingersoll: DEAR SIR:—*Believing it my duty to stand up for Jesus and in defense of His gospel I am prepared to meet you and reply to your animadversions and propositions against the Christian religion, and to cheerfully accord you the same privilege on any week days, upon any public platform in any city of the United States in the month of April, 1878. Conditions—Each to have equal time and to mutually share responsibilities. You can have the present month of January, should you wish that length of time, to let me know whether you accept the challenge or not. Silence on your part will, of course, be considered a refusal of the challenge. My address will be Toronto, Ontario, Canada. Respectfully yours,

W. B. AFFLECK.

Mr. Affleck lectured in New York City last year and with great acceptance. He is at least the equal of Colonel Ingersoll in ridicule and repartee, and if the latter accepts the challenge thus offered a lively discussion no doubt will ensue. Mr. Affleck was requested by citizens of Buffalo to become the champion of religion. Colonel Ingersoll's answer has not been made known yet, if it has been received by the challenger. So says the *Herald*.

Our Washington correspondent writes as that Alex Stephens' proposition to no longer apply the test of the iron clad oath to applicants for pensions is regarded as another step taken in the programme of the Solid South to place the voluntary participants in the rebellion on an equality with soldiers of the Union cause. Several measures are now pending, all calculated to wipe out any distinctiveness between "rebel" and "loyalist" heretofore observed in payment for services rendered during the late war; and almost before the voters of this country realize what is being done in Congress by the ex-Confederate Brigadiers and their pliant abettors from the North and West, the doors will have been swung wide open for the admission of claims, involving hundreds of millions of dollars from disloyal sufferers from the war they provoked. The aptly manifested is as remarkable as it is dangerous; for these schemes are being perfected and pushed by those who have everything to gain by their success.

THE ARLINGTON ESTATE.—It is well known that the former home of Gen. Robert E. Lee (prior to the Rebellion) was opposite Washington, on the high bluffs of the Potomac. It was bequeathed to Lee's wife by her father, George Washington Parke Custis, and during the war was bought by the Government "for a mere song," under a war title, and appropriated to the purposes of a cemetery for Union soldiers. Since the return of peace the heirs of Gen. Lee have begun a suit for the recovery of the Arlington, and after repeated postponement the trial is set down for the first of next March. Notwithstanding the sad fact that Gen. Lee deserted the Government, and commanded a Confederate army, we think Congress should pass an act for the purchase of the Arlington estate at a fair valuation.

A singular fatality seems to follow up all the institutions chartered by Congress in the interest of the colored race. The Freedmen's Bank, at Washington, was started with the most brilliant prospects, but was plundered and ultimately made bankrupt by a real estate ring in that city. The Freedmen's Bureau was broken up and destroyed by its faithless officials. And now the Freedmen's Hospital of that city is similarly afflicted, and likely to wind up in fraud and disgrace. It has been liberally pampered by Congressional appropriations, but a large portion of the money has gone into the pockets of its thievish officers. Fortunately for the reputation of the negro, the plunderers of these institutions have all been white men.

In the opinion of the Attorney General the duty of compelling the Pacific railroads to abide by their charters devolves upon Congress and not upon the President. The whole question appears to be getting into a delightful condition of confusion.

WASHINGTON, Jan. 25, 1878.

Editor Journal:—Day after day the wires are burdened with announcements of new failures of old houses of a half century's growth toppling into the abyssal depths of

BANKRUPTCY AND RUIN.

Until business men—everybody save members of Congress—seems to have taken the alarm and are looking fearfully forward to the future. Members of the Senate spent two whole days eulogizing two dead Senators whom they abused like pickpockets when living, another half day is devoted to charting a requiem mass for the transfer of Italy's dead king from the purgatorial fires which are hoped to have already burned out of him the taint of heresy; and weary days, even weeks, have been consumed in discussing the Matthews' resolution, which, when passed, has no more legal effect to change the existing financial situation than a Pope's bull had to restore his temporal supremacy. Turn to the House and measure its work by the number of bills introduced, it would appear the most diligent one ever assembled; but estimated by the importance of anything practical yet accomplished in any measure relieve the night-mare prostration that has fallen on every industrial and commercial interest, and I fear the lower House of the Forty-Fifth Congress would have to be transposed to the negative side of the equation. A brief review of Fernando Wood's connection with New York City politics is only necessary to a clear apprehension of the burlesque and demagogue roles now being played by many of the members of his smelly committees, ostensibly engaged in the

INTERESTS OF REFORM.

In the dragnet investigations ordered. And it is upon the wisdom of these trading, trafficking, political hucksters are forced to depend for a correct appreciation of the many vital and novel problems peremptorily passing for solution. The Committee on Expenditures for the Treasury Department at a meeting held on Monday last, adopted the following resolution:

Resolved, That the President be, and is hereby, requested to co-operate with this Committee in its investigations of alleged abuses in the Treasury Department, and to issue the order necessary for that purpose.

If Chairman Glover had been other than a member of Congress it would likely be charged that the latter, transmitting the above resolution to the President, was written directly after the author had quaffed a stove-pipe of *spiritus fermenti*. It abounds in the most positive assertions of "GENERAL CUSSENESS."

On the part of Republican officials. Hear him: "For years the Executive Departments of the Federal Government have been increasingly corrupt and oppressive," trampling on the rights and liberties of citizens without hope of redress, and the officers rioting in the profusion of their plunder, "till this misrule has wrought wide misfortune and distress." He is so good as too express a doubt whether all are equally guilty, thus: "The vast extension of the powers of the Government during the late period of civil war and disorder, has thrown on the Executive heads such great and multifarious responsibility that it is impracticable for the head of any Department to know much of what his subordinates do." He intimates that some of the heads of bureaus and sub-divisions may have been actuated by honest motives in the discharge of their official duties, but charges to their subordinates a good proportion of every grade of crime and misdemeanor known to our statute books, who, he says, were banded together to conceal their dishonest, cruel, oppressive and infamous practices. Finally he assures Mr. Hayes if he will co-operate with his (Glover's) committee and protect witnesses who desire to tell the truth but dare not, he "will earn the esteem and gratitude of your (his) countrymen." By this letter Glover has succeeded in rendering his temperance practices more than doubtful and the degree of judicial fairness he may be expected to bring to bear in these investigations need not be more specifically stated than is indicated in his letter. The following is the President's reply:

EXECUTIVE MANSION,
WASHINGTON, Jan. 21, 1878.

Dear Sir:—I am in receipt of your resolution adopted by a Committee of the House of Representatives on Expediencies in the Treasury Department requesting my co-operation with the Committee in its investigation of alleged abuses in said Department.

I shall be glad to co-operate heartily with the Committee in the proposed investigation, and to that end

will issue such proper directions to all officers of that or any other Department as may be required to secure prompt and effective assistance in the conduct of the investigation.

Touching the suggestion contained in your letter, that witnesses who may testify before the Committee may be apprehensive of losing their places if they testify fully and truly, you are at liberty to assure all subordinate officers that the fact of their testifying before the Committee shall not be used to their prejudice.

Very Respectfully,

R. B. HAYES.

Hon. JOHN M. GLOVER.

Whatever may be the opinion as to the discretion and good taste of Mr. Blaine in his uncomplimentary allusions to Massachusetts, there seems no two opinions as to the defeat of Messrs. Dawes and Hoar in their war of words with the Maine Senator.

Miss Von Hillem succeeded in walking 89 miles in 26 hours, 5 of which were consumed in rests at various times. No alcoholic stimulants were used. She makes the effort to walk 100 miles in 28 hours next week.

The services Tuesday at St. Aloysius church, in this city, commemorative of Italy's dead king, was an imposing pageant.

LOGAN.

ARCTIC EXPEDITION.

Mr. Willis, of New York, has reported favorably from the Committee on Naval Affairs a bill introduced by Mr. Hunter to authorize and equip an expedition to the Polar seas. The bill is as follows:

That the President of the United States be authorized to organize and send out one or more expeditions toward the North Pole and to establish a temporary colony, for purposes of exploration, at some point north of the eighty-first degree of north latitude, on or near the shore of Lady Franklin Bay; to detail such officers or other persons of the public service to take part in the same as may be necessary, and to use any public vessel that may be suitable for the purpose; the scientific operations of the expedition to be prosecuted in accordance with the advice of the National Academy of Science and that the sum of \$50,000, or such part thereof as may be necessary, be hereby appropriated out of any moneys in the Treasury not otherwise appropriated to be expended under the direction of the President, provided that no part of the sum so appropriated shall be carried to the surplus fund or covered into the Treasury until the purpose of the appropriation shall have been completed, but may be applied to expenses of said expedition incurred during any subsequent year that said expedition may be engaged in its duties.

The sub-committee having charge of the Diplomatic and Consular bill have partially agreed to reduce the salaries of the leading missions. Those of the British, French, German and Russian missions will be each reduced from \$17,500 to \$15,000. A reduction will also be made in the pay of second and third class missions. Mr. Singleton, the chairman, says that the salaries must be cut down to bring them within the income of the government and the whole diplomatic and consular service must share in the reduction proposed.

The Commissioner of Agriculture estimates the tobacco crop of 1877 at 440,000,000 pounds. Taking the population of the United States at forty millions, it will be seen that an equal division of "the weed" would give eleven pounds apiece to men, women and children. A large portion of our tobacco is exported to Europe, the largest customers being England, France and Germany. A small quantity goes over to Turkey and Egypt, and is smoked by the cozier at Bagdad and the camel driver at Alexandria.

From California we learn that improvements are still being made on the grounds of the California Agricultural Society at Sacramento. When all is completed it will be the handsomest fair ground in the United States, and what is more satisfactory to the horsemen, the tracks are as safe as can be. Nearly all the race horses in training in California are taking their exercise at Agricultural Park, and most of them are doing well.

The only living sons of imported Glencoe are now in California. Rifleman is in Tehama county and Crickton at Los Angeles. Crickton is one of the very last of the get of Lord Jersey's famous chestnut, having been foaled in 1858. He is a brother to Blonde, Maroon and Miss Duke, all famous brood mares.

The Savage levies an assessment of \$1 per share, aggregating \$112,000, delinquent March 1st, and the El Dorado South Consolidated one of 50c per share, delinquent March 8th.

NEW PATENTS.—Through Dewey & Co., Patent Agents, San Francisco, we receive the following list of U. S. patents granted to Pacific Coast inventors, viz: E. DeCourcy, S. F., awnings; J. W. Mahoney, Bishop Creek, Cal., plows; J. W. Davis, S. F., pantaloons; J. W. Allenwood, Timbuctoo, Cal., ore washing apparatus for hydraulic mining (reissue); E. W. Haines, S. F., a medicine for horses (trade-mark).

Among the fashionable events which society in Washington is looking forward to with some interest is the reception of the Secretary of State, which will shortly be given in the new State Department building. All the members of the government and of the diplomatic corps will be invited, and it will probably be the best brilliant affair of the kind ever given at the capital.

The decline in gold is due to the reduction of the Bank of England rate to two per cent. and advices from Washington, that there was a slight defalcation in the silver ranks which might prevent the Bland bill from getting a two-third vote in the Senate. The announcement that the bill was postponed until Monday also had some effect.

HARRIS, from the House Elections Committee, on Thursday reported in favor of Wiggington. Wait presented a minority report favoring Pacheco. Springer presented a separate report, although concurring in the report of the majority. All ordered printed. The case comes up Tuesday.

The woman suffrage pioneers are going to carry on an aggressive war this Winter, having appointed a delegation, with Mrs. Isabella Beecher Hooker at its head, to visit Southern capitol and address the Legislatures on woman suffrage.

The late Mr. Greeley's estate has been finally settled. Among the assets were fifty thousand dollars' worth of broken promises to pay, the only certain value of which, unfortunately for his family, is their value as waste paper.

The certificate lately given to a registrar of deaths by the secretary of a Forrester's court in Bedfordshire, England, reads thus:

DEAR SIR:—This is to certify that John M. died in accordance with doctor's instructions.

JOHN WAGNER, formerly a well-known citizen of Carson, has the management of an extensive new bar and pool-hall recently opened in Aurora, on the corner of Pine and Antelope streets.

CATARRH
NEVER-FAILING RELIEF
AFFORDED BY
SANFORD'S RADICAL CURE.
It is a fact that can be substantiated by the most respectable testimonials ever offered in favor of any proprietary medicine, that the RADICAL CURE FOR CATARRH does in every case afford instant and permanent relief. No matter how long standing, or how severe the disease, the first dose gives such evidence of its value in the treatment of Catarrhal affections that confidence is at once felt in its use. It is the only medicine that has been the subject of testimony of physicians, druggists, and others, is unanimous on this point, and the accumulating evidence is in point of respectability superior to any ever before obtained in favor of a popular remedy. The proprietors, therefore, most justly feel proud of the position this remedy has attained, and believe it worthy of its reputation.

10 YEARS A SUFFERER.
From Hon. Theo. P. Bogert, Bristol, R. I.
Messrs. WEEKS & POTTER: Gentlemen,—Feeling thoroughly convinced of the efficacy of SANFORD'S RADICAL CURE FOR CATARRH, I have induced you to drop you a line to say that although I have been afflicted with all the catarrhs and other "troubles" I have never found anything that promises such relief and ultimate cure as that of your "Radical Cure." I have been afflicted with this dreadful disease for more than ten years, and not until recently could I be induced to give up my old and tried remedy. I have now used your medicine for six months, and I am thoroughly convinced of its curative properties. I have been able to do my duty, and I feel myself well, and I am glad to state that I am, gentlemen, very truly, etc.,
THEO. P. BOGERT.

We give below the most important testimony taken at the inquest held by Coroner Haslund upon the body of B. F. Ingram, who committed suicide Thursday afternoon at Verdi.

Mr. E. Erickson being duly sworn deposes and says: "I reside at Verdi; have been employed for 8 days previous to the death of deceased as his attendant; for some days during the early part of my attendance the deceased seemed to be deranged in his mind; for the last two or three days quite rational; I left the deceased Jan. the 31st to eat my dinner; he was lying in bed awake; I was absent about 15 or 20 minutes; when I left I asked deceased if he wished anything to eat; he replied if they have any soup he would like some; when I returned he was lying upon his right side, partly on his face; on the floor I discovered a pool of blood; I went and called Mr. Bowman; Mr. Bowman is proprietor of the hotel at which this occurred; did not at that time see the cause of the blood; afterwards found his throat was cut; also saw razor lying on the floor; think the deed was done by his own hand; think the deceased was alone while I was absent; do not know how long he lived after I first discovered him in this condition."

E. ERICKSON.

Wm. Merrill being duly sworn says: I reside near Verdi; occupation hotel keeper; I know deceased; his name is B. F. Ingram, native of State of Virginia, age about 58 years; I saw deceased lying on his right side on the floor; a pool of blood near him; saw Mr. Haller turn deceased over and find the razor under his body; deceased lived about one hour and ten minutes after we thus discovered him; I think he came to his death by this wound inflicted by his own hand with a razor; this was on the 31st day of January, 1878, about noon.

WM. MERRILL.

Mr. J. H. Bowman, being duly sworn, says: I reside in Verdi; I know the deceased; his name is B. F. Ingram; young Mr. Erickson called me, telling me to come in quick; I went in the room where deceased lay and saw him lying on the floor in a pool of blood, lying on his right side; I went immediately and called Mr. Haller, Mr. Whitmer and Mr. Merrill; the deceased appeared to be lifeless when I discovered him; afterwards he recovered and commenced rolling himself on the floor; Mr. Haller turned him over and found a razor lying under him; deceased must have taken the razor from the shelf over the bed. I think the deed was committed by deceased himself; I have known the deceased 12 years; his occupation here was that of hotel and saloon keeper; was in partnership with me; think the deceased was born in the State of Virginia; think his age was about 58 years; deceased lived after I first discovered him about one hour and ten minutes.

J. H. BOWMAN.

Dr. W. A. Bergman, being duly sworn, says: I attended deceased during his sickness; the last time I saw deceased alive his disease was rheumatism; I thought he was improving; yesterday I received a telegram stating that he, deceased, had cut his throat; soon after received another telegram, saying don't come, he is dead; I have examined the body and find that he came by his death by a wound in his throat which must have been inflicted by a short knife; the wind pipe was severed; do not think after the wound was inflicted the deceased could have recovered; think the wound could have been inflicted by deceased; think in general when I saw deceased he was rational.

DR. W. BERGMAN.

VERDICT.

* * * We find that deceased was named B. F. Ingram; was a native of the State of Virginia; aged about 58 years; that he came to his death on the 31st day of January, A. D. 1878, in this county, by suicide; having his throat cut, which act, upon hearing the testimony adduced, we your jurors in the above entitled inquisition believe was done with a razor in his own hand with intent to commit suicide. All of which we duly certify in writing this 1st day of February, 1878.

Special Notice.

Having determined on reducing my large stock of goods, previous to stock taking, I will on Monday and following days offer such bargains in dry goods as will convince the public that this is a bona fide sale. Every piece of goods in the store has been marked down to the lowest possible price in order to effect a speedy clearance. This no humbug or mock sale. When we tell you that you can buy goods cheaper than ever before offered in Reno we mean just what we say. Our domestics, flannels, blankets, bedspreads, table linen and towels, are marked below cost. Cloaks, skirts, waterproof and dress goods, at cost. Give us a call and judge for yourself. N. B. The remainder of our Holiday goods at very low prices.

Large Funeral.

Nearly every person in Verdi, and a number from Reno, attended the funeral of Frank Ingram yesterday afternoon at Verdi. They all expressed great sympathy for the deceased and all felt a sadness when they thought how severely he must have suffered to be driven to such an act as taking his own life. May he rest in peace, and may the mound that covers him be as green as his memory.

CALIFORNIA FISH CULTURE.—The State Fish Commissioners are doing a great and beneficent work for California, and the Legislature should certainly make a much larger appropriation for the service in which they are engaged. Readers of the Post have been made familiar with their successful efforts in acclimatizing and propagating food fish. Their latest achievement has been the successful hatching out of 50,000 Sebago Salmon, from Maine. The eggs arrived on the 19th, and were transferred to the State hatching house at San Leandro, where they were all hatched. The little fellows are now as lively as possible, and are ready for distribution in the public waters of the State by persons willing to undertake that duty. We therefore invite gentlemen interested in fish culture to apply to Mr. Woodbury, at San Leandro, who will supply them with young salmon and cans for transporting them free of cost. The Fish Commissioners have no funds at their disposal to defray the expense of distributing these fish through the public waters of the State, but will be pleased to supply young fish to gentlemen willing to stock lakes and rivers in their own neighborhood. It is to be hoped this invitation will be pretty generally availed of. The variety known as Sebago salmon live in the land locked lakes of Maine, where they are esteemed a fine fish and very game. In California waters, where food is more plentiful, they may be expected to attain to a much larger size than in Maine. Speaking generally of fish propagation in this State, it may be added that the hope of repairing the loss of whitefish by importing more eggs this season must be abandoned. No further shipments can be had. Hence the necessity for passing a stringent law to protect those already in the lakes of California, to the destruction of which by fishermen allusion has been already made in the Post.—S. F. Post.

RAILROAD TIES.—A recent lumberman's circular estimates the number of railroad ties in present use in the United States at 150,000,000. A cut of 200 ties to the acre is above rather than under the average, and it therefore has required the product of 750,000 acres of well timbered land to furnish the supply. Railroad ties last about five years; consequently 30,000,000 ties are used annually for repairs, taking the timber from 150,000 acres. The manufacture of roll-stock disposes of the entire yield of 350,000 acres, and full supply of near 500,000 acres more, every year. It appears, then, that our railroads are stripping the country at the rate of 1,000,000 acres per annum; and their demands are rapidly increasing.

The San says the outlook for the future of Tybo never looked better than at present.

REMOVAL NOTICE.—Osborn and Shoemaker, Druggists, inform their old patrons and the community generally, that they will on the 1st day of February, move into the building occupied by J. N. Jaquish, one door west of their present stand.
